Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary	Application No. 10/603,748	Applicant(s) NA, TAE-KWON	
	Examiner Sophia S. Chen	Art Unit 2852	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☒ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-20 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☒ Claim(s) 1-20 is/are allowed.
- 6) ☐ Claim(s) _____ is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 26 June 2003 is/are: a) ☐ accepted or b) ☒ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☒ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☒ All b) ☐ Some * c) ☐ None of:
1. ☒ Certified copies of the priority documents have been received.
2. ☐ Certified copies of the priority documents have been received in Application No. ____.
3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- * See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Ex parte Quayle

1. This application is in condition for allowance except for the following formal matters:

Drawings

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: PC1 (page 5, line 9, etc.) and PC2 (page 5, line 18, etc.). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
3. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: L2 (Figure 4). Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the

Art Unit: 2852

description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claims

4. Claims 3 and 20 contain the following informalities:
 - a. Claim 3, lines 1-2, "the input current" should be "an input current" because it is the first time to use this terminology.
 - b. Claim 20, line 6, "a AC" should be "an AC".

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Allowable Subject Matter

5. Claims 1 through 20 are allowable over the prior art of record.

Art Unit: 2852

6. The following is a statement of reasons for the indication of allowable subject matter: Claim 1 is allowable over the prior art of record because the prior art of record does not teach or suggest a variable voltage switchable fixing apparatus of a printer, comprising an input voltage detector and a second switching unit connected between the second end of the first resistance body and the second terminal of the power supply to switch on or to switch off in response to the output signal from the input voltage detector, in combination with the remaining claimed limitations.

Claim 20 is allowable over the prior art of record because the prior art of record does not teach or suggest a 110V/220V switchable printer, comprising an input voltage detector, a second switching unit connected between the second end of the first resistance body and the second AC terminal of the AC power supply to switch on or to switch off, and a control unit connected so as to input the signal outputted from the input voltage detector controlling the first and second switching units.

Citation of Pertinent Prior Art

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Mine (US Pat. No. 6,157,010) discloses an image forming apparatus comprising a photoconductor; a fixing apparatus; a first heater having a first end connected (via a second switching unit) to a second terminal of a power supply; a second heater having a first end connected to a second end of the first heater; a first switching unit connected between a second end of the second heater and the second terminal (not the first

Art Unit: 2852

terminal) of the power supply; and the second switching unit connected between the first end (not second end) of the first heater and the second terminal of the power supply.

Yoshimura (US Pat. Pub. No. US 2001/0020610 A) discloses an image forming apparatus comprising a photoconductor; a fixing apparatus; one end of a first resistance body connected to an end of a second resistance body; an AC power supply; three switching units; and a control circuit.

Yamane et al. (US Pat. No. 6,522,844 B2) discloses an image forming apparatus comprising a fixing apparatus; a first heater having a first end connected to a second terminal of an AC power supply; a second heater having a first end connected to a second end of the first heater; a first switching unit connected between a second end of the second heater and a first terminal of the AC power supply; and a control unit.

Suzuki et al. (US Pat. Pub. No. US 2004/0067072 A1) discloses an image forming apparatus comprising a photoconductor; a fixing apparatus; a first heater having a first end connected to a second terminal of an AC power supply; a second heater having a first end connected to a second end of the first heater; a first switching unit connected between a second end of the second heater and a first terminal of the AC power supply; and a control unit.

Art Unit: 2852

Contact Information

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sophia S. Chen whose telephone number is (571) 272-2133. The examiner can normally be reached on M-F (7:00-3:00) First Friday Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Arthur Grimley can be reached on (571) 272-2136. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
